

Electrically conductive clamp profile hose (clip hose), (up to +210°C)

Applications

- flexible hose/ ducting for hot and cold gases and for dust, powder, fibres
- chemical industry: chemical vapours, vapour return hose at loading arm, paint steam, spray mist extraction
- explosion hazard area
- bellows, compensators

Properties

- abrasion protection via external Clamp profile
- secure clamping of the wall within the Clamp profile
- highly flexible + compressible 4:1
- very good heat resistance
- good resistance to oil, gasoline and chemicals
- good resistance to alkalis and acids
- electrically conductive wall: electrical and surface resistance $<10^4 \Omega$
- in accordance with ATEX 2014/34/EU and German TRGS 727: aspiration of combustible dusts (Zone 22 inside), for use in zone 1 and 2 (gases), for use in Zone 0 (gases)
- conforms to RoHS guideline

Temperature Range

- 20°C to 210°C

Design, Material

CP construction

- Clamp profile supporting spiral: galvanised steel
- wall: VITON® coated polyester fabric

Delivery variants

- further diameters and lengths available on request

Overpressure and underpressure are recommended threshold operating values, products can be subjected to higher loads upon request. The bending radius is measured through the inside of the hose arch. Additional technical data at www.norres.com. The right to make technical modifications is reserved. All values determined at 20°C and are approx. data.
