

TECHNICAL DATA SHEET

Hexpol code: E11024525E

Name: Sponge 0,5 ADC free

Product description: Non cured EPDM sponge rubber compound

Elastomer: EPDM

Vulcanization system: Sulphur

Colour: Black

Density: $1,2 \text{ g/cm}^3$

Density on cured profile: $0.50 \pm 0.5 \text{ g/cm}^3$

Usage:

Rubber sponge compound applied for the extrusion on UHF or LCM line, preferably in the automotive industry.

Application:

Rubber profiles for the automotive industry, mono profiles or co-extrusion with solid compound

Packaging:

Endless strips, 55 x 8 mm, loading around 380 kg in metal Euro-Gitterboxes.

Storage stability:

21 days from the production date, under dry conditions and temperature range 5 - 25°C.
