

TECHNICAL DATA SHEET

Hexpol code:	E11024525E
Name:	Sponge 0,5 ADC free
Product description:	Non cured EPDM sponge rubber compound
Elastomer :	EPDM
Vulcanization system:	Sulphur
Colour:	Black
Density:	1,2 g/cm ³
Density on cured profile:	0.50 ± 0.5 g/cm ³

Usage:

Rubber sponge compound applied for the extrusion on UHF or LCM line, preferably in the automotive industry.

Application:

Rubber profiles for the automotive industry, mono profiles or co-extrusion with solid compound

Packaging:

Endless strips, 55 x 8 mm, loading around 380 kg in metal Euro-Gitterboxes.

Storage stability:

21 days from the production date, under dry conditions and temperature range 5 - 25°C.
