With respect to EU

The following Regulations and Directives apply:

European Directive 2002/72/EEC of August 06, 2002 relating to Plastics Materials and Articles intended to come in Contact with Foodstuffs and further amendments, and CE Regulation n° 1935/2004.

- The above-mentioned hose can be used with foodstuffs that belong to the classes "A" (water-based foodstuffs), "B" (acidic-water-based foodstuffs), "C" (water-based foodstuffs with a maximum ethyl alcohol content of 50%) and milk products.
- The above-mentioned hose can not be used with foodstuffs that belong to the class "D" (fatty foodstuffs).
- The above-mentioned hose can be used into contact with the so-called *dry foodstuffs*, for which no migration tests with simulants are prescribed.

We want to call your attention to the fact that, according to the law, the final user is responsible to check the technological suitability of the hose referred to the purpose for which it is assigned.

The specifications and the mentioned regulations should be consulted in order to achieve all the inherent details.
