Rubber quality 'A621'

Formulation check according to FDA 21 FOOD AND DRUGS PART 177.2600

The formulation (recipe) of the rubber quality named

„ A621 “

was disclosed by the manufacturer to OFI as part of Order No. 1700625 / 525 (formulation from 2017-01-26)

As a result of an appropriate assessment, the material's formulation is in accordance with the requirements of the FDA 21 FOOD AND DRUGS PART 177.2600 (Rubber articles intended for repeated use, Revised 2016-04-01).

From this perspective it can be summarised, that the rubber quality

„ A621 “

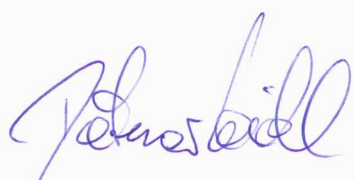

fulfils the requirements given by the mentioned FDA 21 FOOD AND DRUGS PART 177.2600 regarding its formulation and therefore this material is suitable for the manufacturing of products coming in contact with aqueous foods.

For the sake of completeness and clarity, however, it should be noted, that additional tests have to be carried out on finished products before using them in contact with aqueous foods, showing that the specific requirements of FDA 21 FOOD AND DRUGS PART 177.2600 tests (e) are met.

This statement of conformity is valid until 2022-03-14 or until changes in the relevant legislations and/or normative regulations are made.
